Supported Hypervisors for Citrix Virtual Apps and Desktops and Provisioning (Provisioning Services)

Article | 3rd party / compatibility | 65 found this helpful | Created: 06 Feb 2014 | Modified: 25 Jul 2022

Applicable Products

- XenServer
- Provisioning Services
- Citrix Hypervisor
- XenDesktop

Information

Citrix Hypervisor, formerly XenServer, is powered by the Xen Project hypervisor.

Citrix is committed to ensuring that our products function with the latest VMware, Microsoft, and Citrix Hypervisors.

Click the following products to view the supported configurations matrix.

XenServer – Provisioning (Provisioning Services)	XenServer – Citrix Virtual Apps and Desktops
vSphere – Provisioning (Provisioning Services)	vSphere – Citrix Virtual Apps and Desktops
SCVMM – Provisioning (Provisioning Services)	SCVMM – Citrix Virtual Apps and Desktops
Nutanix Acropolis – Provisioning (Provisioning Services)	Nutanix Acropolis – Citrix Virtual Apps and Desktops

Note:

- This matrix indicates supported configurations of Citrix Virtual Apps and Desktops and Provisioning (Provisioning Services) with various hypervisor solutions. When **Yes** is listed for a combination, it means Citrix will provide technical support to assist with any issues encountered. Any known issues and requirements for certain combinations are indicated with notes.
- This article will be updated periodically as new information becomes available.

What has changed from the last release of the matrix?

- Added support for Virtual Apps and Desktops 7 2206 & Provisioning 2206

Cloud Support

- Following Cloud platforms are supported by Citrix Virtual Apps and Desktops Service: Microsoft Azure, AWS, Google Cloud Platform, VMware Cloud on AWS.
- VMWare Cloud on AWS is also supported by Citrix Virtual Apps and Desktops 1912 (CU2 & newer) LTSR, Provisioning 1912 (CU2 & newer) LTSR.

Citrix Hypervisor (XenServer) - Provisioning (Provisioning Services)

Supported Hypervisors / XenServer	Citrix Provisioning			
	2206/2203 LTSR	1912 LTSR	7.15 LTSR	7.6 LTSR
Citrix Hypervisor 8.2 LTSR	Yes(CH 8.2 LTSR CU1 or later)	Yes	Yes	No
Citrix Hypervisor 8.1	No	Yes	Yes	No
Citrix Hypervisor 8.0	No	Yes	Yes(7.15 LTSR CU3 or later)	No
XenServer 7.6	No	Yes	Yes	No
XenServer 7.5	No	No	Yes	No
XenServer 7.1 LTSR	Yes(XS 7.1 LTSR CU2 only)	Yes(XS 7.1 LTSR CU2 only)	Yes	Yes
XenServer 7.0	No	No	No	Yes

vSphere

Note:

- Citrix performs compatibility tests only with the major updates of VMware **vSphere**, like Update 1, 2 and so on. The minor updates like 1a, 1b, 2a and so on are not tested, however, they are expected to work fine.
- Testing of updates for the earlier version of VMware **vSphere** might be limited, as priority is given to the updates of the current version. When using earlier releases of these products, Citrix recommends validating product updates for proper functionality and interoperability in a test environment first before updating production environments.

vSphere - Provisioning (Provisioning Services)

Supported Hypervisors / vSphere	Citrix Provisioning			
	2206/2203 LTSR	1912 LTSR	7.15 LTSR	7.6 LTSR
vSphere 7.0 (Up to update 3)	Yes (vSphere 7.0 U2 or later)	Yes (1912 LTSR CU2 or later)	Yes (7.15 LTSR CU7 or later)	No
vSphere 6.7 (Up to update 3)	Yes (vSphere 6.7 U3)	Supported. Refer to CTX235513 for details	Yes (7.15 LTSR CU3 or later)	No
vSphere 6.5 (Up to update 3)	Yes (vSphere 6.5 U3)	Supported. Refer to CTX219808 for details	Supported. Refer to CTX219808	Supported. Refer to CTX219808
